# Navajo Abandoned Uranium Mine

## **Site Screen Report**

This form is for use at the site of abandoned uranium mines (AUM) located on Navajo Nation lands. Applicable sites include all mine and mine features that have or have not undergone reclamation by the Navajo Abandoned Mine Lands Reclamation Program, including features, adits, pits and waste piles. Applicable sites also include all AUM sites listed in the USEPA CERCLIS database, all sites listed in the 2008 AUM GIS Report issued by USACOE and USEPA, all AUM sites on allotment lands associated with the Navajo Nation, and any and all AUM sites not listed in any database located on Navajo lands. Reconnaissance of any sites located on lands adjacent to Navajo lands that may be impacting Navajo lands will need to be coordinated with the authorities appropriate to those lands.

The purpose of the form is to ascertain the status and location of the identified AUM site, and record all immediate site information associated with the mine site. Decisions and recommendations on what additional steps are needed will be provided on a separate document.

## Captain Benally No. 4A AUM Site

Navajo AUM Northern Region

Prepared by:

Weston Solutions, Inc.

Contract: W91238-06-F-0083

12767.063.496.1111

August 2010

Part I	Site Identification, Location and Status		
Site Names an	d ID numbers as applicable		
Mine ID:	283		
Map ID:	N12		
CERCLIS:	NNN000909008		
Navajo Aband	loned Mine Land Reclamation Program: NA-930		
Local name / A	Aliases: Capitan Benally 4A; Capitan Benally #4A and 5		
Chapter and le	ocal area: Teec Nos Pos Chapter		
County: Apac	he <b>State:</b> Arizona		
Lat/Long: 36.	937888787 N / -109.262560773 W		
Nearby road a	and highway: Highways 64 & 160 Local Post Office: Teec Nos Pos, AZ		
Surface Land below	Status: check one or more and provide ownership and contact information		
Tribal Trust I Private Bureau of Lan State	Tribal Fee Land		
Subsurface Mi	ineral Rights:		
No information	on subsurface mineral rights ownership was found in the EPA/AUM Database.		
Claim and ope	erator information:		
the operator of	surface land status is classified as Tribal Trust Land. Historical documents showed the mine as Climax Uranium in 1957, and Jimmie King in 1957. No other ership / lease information was identified in the EPA/AUM database.		
Number of res	sidential structures within 200 feet of mine: None		

Estimated volume of mine waste onsite: None

## Part II Summary of radiological readings

## **Highest gamma radiation measurement:**

9,282 counts per minute (cpm)

## Describe any other radiological measurements:

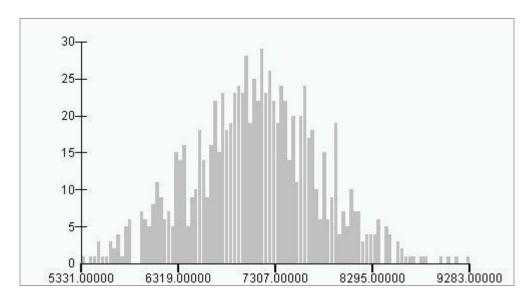

A total of 918 gamma radiation measurements were collected from the mine site, ranging from 5,331 cpm to 9,282 cpm. The measurements are represented in Figures 1 and 2.

# **Background Locations** #1 6,611 cpm

**Average background** = 6,611 cpm

## **Distribution Chart and Statistics:**

The following chart and statistics were generated by ESRI ArcGIS 9.3.1, and show the general distribution of the site gamma radiation measurements. The horizontal X axis represents the gamma radiation reading levels in cpm (lowest levels to the left). The vertical Y axis represents the frequency of each gamma radiation level.

Count:	918	
Minimum:	5331.00000	
Maximum:	9283.00000	
Sum:	6523484.00000	
Mean:	7106.19172	
Median:	7111.50000	
Standard Deviation:	644.78358	

#### Part III Status of Reclamation and Mine Waste

The following information was obtained from the Navajo Abandoned Mine Land Reclamation Program (NAMLRP) Point Features Database:

NAMLRP Status of the mine site: Reclaimed: Yes Waste Pile onsite: No

**NAMLRP Project Number:** NA-0930

**NAMLRP Mine features:** Waste Pile

The following information was obtained from field observations collected during the 2010 site screening:

Provide description and status of all mine sites and features at site. Include all waste piles, adits, pits and other features, and indicate whether they are open, closed, covered, capped, buried or unreclaimed. Indicate approximate size, shape and extent, including description of any reclamation caps. Note condition of all caps.

of any rectamation caps. Note condition of an caps.			
Observed reclamation work and status:			
Adits None			
Waste Piles None			
Pits None			

**Shafts** 

None

**Other Debris and Mine Features** 

None

#### Part IV

#### Site observations and Environs

Observed Structures: list number of and describe human habitation status of structures at the following distances from mine:

**0 to 200 feet:** None

200 feet to 0.25 mile: None

Observed Public or commercial structure: list and describe all schools, clinics, Chapter Houses, places of business and any other structure used by members of the community at the following distances:

0 to 200 feet: None

200 feet to 0.25 mile: None

Levels measured around the perimeter(s) of the identified structure(s):

None

Observed water sources: list the number and type of wells and surface water sources that are potentially used for human consumption at the following distances from the mine:

0 to 0.25 miles: None

**0.25 miles to 4 miles:** None

Sensitive environments: note and describe all sensitive environments located within visible range of the mine site, including: wetlands, endangered species, habitats and approximate locations of sites that may be under protection of the government of the Navajo Nation.

None observed

Known Site History: include information from interviews with Chapter officials and residents. Note information on mine ownership, type of mining operation, period of operation, known amount of production, and any other information as provided.

Captain Benally No. 4A mine consists of an area of 9,560.48 m<sup>2</sup>. The mine was identified as being operational in 1957. Historical documents showed the operator of the mine as Climax Uranium in 1957, and Jimmie King in 1957. While operational, the mine had a total reported production volume of 114 tons. No other historical information or any additional ownership / lease information was identified in the EPA/AUM database.

## Part V Response Action Summary

**Site Name(s):** Captain Benally No. 4A **Chapter:** Teec Nos Pos

## **Decision Criteria**

Is there an unreclaimed waste pile at the site? No

At what distance from the waste pile is the nearest residential structure located? None

At what distances from the waste pile are there potential drinking water sources? None

Is there a reclamation cap or sealed adit in place at the site? No

Is the cap/seal functionally intact? No

Is the cap/seal sufficiently degraded to create a concern about releases? No

At what distance from the cap/seal is the nearest domestic structure located? None

At what distance from the cap/seal is the nearest domestic drinking water source? None

## **Summary of emergency response factors**

None

## **Summary hazard ranking system factors**

None

## **Summary of reclamation factors**

None
